

# V-TAC

Meaningful Innovation.

# Battery RACK

Suitable for 48V100Ah

## Features and Advantages

Rust-proof, anti-static, insulated and wear-resistant

Fashionable design

Overall design, even force, strong stability

Easy to install and maintain, convenient for transportation

## Specification

### Product Name: Battery Rack (Single Layer)

Material: Iron

Composition content: Iron, carbon, alloying elements

SKU: 11556 (Suitable for single layer)

Weight: 7±0.5kg

Maximum load capacity: 200kg

Max. Piles: 5 Layers

Applicable Product: VT48100E-P2

Dimension(W\*H\*D): 568\*167\*499mm (Single layer size)

### Product Name: Rack Top Cover

Description : Use with Battery Rack

Weight 3±0.5kg

Applicable Product: VT48100E-P2

Dimension(W\*D):558\*500mm

SKU:11558
